

Features & Applications

The Chameleon Board is a scalable back lighting system suitable for medium to large area that requires even illumination. It comes in Mono or RGB colour, with auto addressing DMX options to achieve mesmerizing effects. It is ideal for dance floor, feature walls, ceilings and special effects applications.

Dimensions

Product Specifications

Models	RGB DMX01	RGB DMX04	RGB	Mono
Light Source	16x Nichia 3 in 1 RGB SMD LED			16x 5060 SMD LED
LED Viewing Angle	115 Deg			
LED Luminous Intensity	R: 700 mcd; G: 1200 mcd; B: 400 mcd			-
Nominal Operating Voltage	24 Vdc			
Power consumption	5.5W (Max)		6W (Max)	6W
Controller Options	Direct DMX 512 signal feed		PCC-3, PCC-51 or PCC-8	-
DMX Address	3 channels	12 channels	-	-
Colour Options	RGB 16.7million colours			White, Warm White, Red, Green, Blue, Amber
Mounting	M3 Screw Mount			
Operating Temperature	-5 ~+ 40 deg C			
Estimated Life Span	50,000 hrs			

Models

PZC-1DMX01	Chameleon Board RGB, DMX auto-addressing taking 3 channels
PZC-1DMX04	Chameleon Board RGB, DMX auto-addressing taking 12 channels; every quadrant of board will take 3 channels
PZC-1	Chameleon Board RGB
PZX-1	Chameleon Board Mono B: White, E: Warm White, R: Red, G: Green, L: Blue, Y: Amber
